

## How to convert documents to PDFs for free

**PDF stands for "portable document format" and was developed by Adobe some 17 years ago. It enables capturing and reviewing information from almost any application on any computer system and sharing it with virtually anyone, anywhere.**

Whilst Acrobat Reader, the software required to view pdf files is free, to convert documents to pdf you would need buy Adobe software costing hundreds of pounds.

## There is another way! Cute PDF to the rescue!
